

**FREE
STAND™**
Freestanding Hoarding Specialists

No Drilling. No Digging. No Risk.

**FREE STAND™
GB2™ Barrier**

Product Overview

Elevate your traffic and pedestrian management with the FREE STAND™ GB2™ Water-Filled Barrier, designed for optimal safety and adaptability. It is crafted from UV stabilised polyethylene, and can withstand winds up to 38mph, the GB2™ sets a new standard in barrier technology, offering a robust and versatile solution for a multitude of applications.

The GB2™ barrier can be swiftly deployed and adjusted, making it the ideal choice for temporary traffic control, event management, and emergency situations. Its hassle-free setup allows for rapid response when every moment counts. Whether safeguarding construction zones, managing crowd control at events, or demarcating traffic flow, this barrier meets stringent safety and quality standards, providing peace of mind to users and stakeholders. Trust in a product that exceeds expectations in every aspect of performance and reliability.

Choose the GB2 Water-Filled Barrier for a solution with unparalleled adaptability, setting a new benchmark for safety and efficiency in traffic and pedestrian management.

Features & Accessories

Versatile

Lightweight and easy to transport and handle. Height can be increased to 2300mm with hoarding panels. The GB2™ has the ability to achieve up to 35° angles thanks to its pin locking device, making uneven ground and corners hassle free.

Security

Infill panels available for extra security.
