

Product Overview

Our FREE STAND™ Water-Filled Bison Barrier is a heavy duty traffic separator. It sits at 2m wide and 1m tall, it can rotate a full 90 degrees enabling and can withstand wind speeds up to 75mph.

It weighs only 35kg when empty and 400kg when full, it can be connected together forming a formidable barrier between the pedestrians and traffic and allow for clear demarcation.

The side of the barrier includes a Chapter 8 compliant hi-visibility section that can be used in connection with various fence and hoarding panels.

The FREE STAND™ Water-Filled Bison Barrier serves as both a physical and psychological deterrent. It is a popular choice for pedestrian and traffic safety and demarcation.

Features & Accessories

Versatile

The Bison Barrier rotates 90° degrees and have a Chapter 8 compliant strip as standard they are easy to stack, due to the bottom forklift slots which double as interlocking grooves when vertically aligned with neighbouring barriers.

Sustainable

Our Water-Filled Bison Barriers are fully recyclable.
