

FREE STAND™ Double Vehicle Gates

Product Overview

Introducing the FREE STAND™ Temporary Double Vehicle Gates – the innovative solution for secure and flexible access control. Whether you need to manage vehicle traffic at events, construction sites, or temporary access points, these gates provide a reliable and versatile solution.

The robust construction is designed to withstand external forces and provide a formidable deterrent against unauthorised access.

Enhance security protocols with optional integrated access control systems. Our gates seamlessly integrate with keycard readers, biometric scanners, and other access control technologies, providing a comprehensive solution for controlled entry.

Features & Accessories

Versatile

These free-standing gates offer unparalleled versatility in deployment. Whether securing entrances to commercial properties, restricting access to construction sites, or managing pedestrian flow at events, these gates seamlessly adapt to various settings. Quick setup and breakdown make them ideal for temporary applications, providing a hassle-free solution for security on demand.

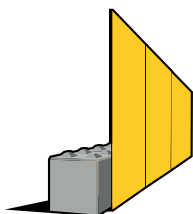

Customisation

Choose from various gate sizes, styles, and finishes to complement the aesthetics of your location while maintaining a high level of security.
