

FREE STAND™ Pedestrian Gates

Product Overview

Introducing the FREE STAND™ Temporary Pedestrian Gate. Whether you're organising an event, overseeing construction sites, or directing foot traffic at temporary access points, these gates provide a secure, portable, and versatile solution.

Designed for on-the-go convenience, the FREE STAND™ Temporary Pedestrian Gates can be easily transported and set up without the need for permanent installation. This makes them perfect for events, festivals, and construction sites where temporary access control is crucial.

Crafted from high-quality materials, these gates are built to withstand the wear and tear of frequent use and varying weather conditions. The robust construction ensures longevity and reliability, making them an ideal choice for both short and long-term applications.

Features & Accessories

Versatile

Whether you're directing foot traffic at a concert, managing queues at a sport event, or overseeing pedestrian flow at a construction site, the FREE STAND™ Temporary Pedestrian Gate is versatile enough to meet a variety of needs. Its adaptability makes it an essential tool for event organisers, construction managers, and security professionals.

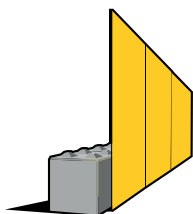

Safety

Enhancing safety, the gates incorporate reflective elements to ensure high visibility, especially in low-light conditions. This feature contributes to a safer pedestrian experience, reducing the risk of accidents in crowded or dimly lit areas.

Used For

- Car Parks
- Construction Sites
- Demolition
- Events
- Industrial Estates
