

FREE STAND™

Freestanding Hoarding Specialists

No Drilling. No Digging. No Risk.

FREE STAND™ Steel Hoarding

Product Overview

FREE STAND™ Steel Hoarding is our most popular reusable free stand hoarding system. This system can be installed quickly, providing good site privacy and security.

Hoarding panels are manufactured using pre-galvanised steel and come in the form as standard. The fencing panels can then be powder coated in various colours and we can match up the hoarding panel colour to match your corporate colours if required.

Where aesthetics are important, we strongly recommend that a powder coating finish is used.

Features & Accessories

Solid Construction

Protect buildings, plant, machinery, and people from vehicles.

Matching Gates

Temporary Vehicle and Pedestrian Gates are available up to 10m in height.
